

FOOD DELIVERY AT YOUR SCHOOL

IMPORTANT REMINDER

At Breakfast Club of Canada, we are proud to offer school delivery of a wide variety of fresh, nutritious food products in communities across the province of Quebec, in collaboration with our food and logistics partners.

Preparation is key

As we know all too well, transportation industry issues, traffic and weather can lead to delivery delays or unforeseen scheduling changes. That is why it is important **to have a backup plan (or two) in place.**

We encourage you to get other people involved in delivery reception, such as your **school custodian, secretary and other staff members, your Grade 5-6 classes, your daycare team or a group of volunteers.** The more people you have on board, the better your chances of managing your deliveries effectively and ensuring the overall success of your breakfast program.

Let's avoid extra costs

Rest assured that everyone here at the Club and our transportation partners will do everything in their power to comply with the established delivery schedule. However, if you are sufficiently prepared to adjust to delays and accept deliveries at any time during school hours, you will be helping us avoid cost overruns. Note that every time a school turns a delivery truck away, we incur additional fees – something we should all try to avoid, knowing that every dollar counts in reaching out to as many children as possible.

**YOUR COOPERATION AND UNDERSTANDING ARE PARAMOUNT
AND GREATLY APPRECIATED!**
